

A solution designed for better health outcomes and cost savings.

UnitedHealthcare and Arizona Community Physicians (ACP) are working together to provide a patient-centered health plan that helps promote better health and lower costs. More than ever, members realize they play an important role in getting the health care they need. But not knowing if a choice is the right one can be intimidating and may lead to disjointed, inefficient care delivery. NexusACO® provides a framework to help support members in achieving improved health results and cost savings.

It's all about connections.

The key to this framework is connecting the outcome-based results of high-performing providers, the better member experience of a primary care physician (PCP) to “quarterback” their care and the incentive of a national network tiered on results and cost efficiencies designed to help deliver employer savings of up to 15%.¹

NexusACO benefits.²

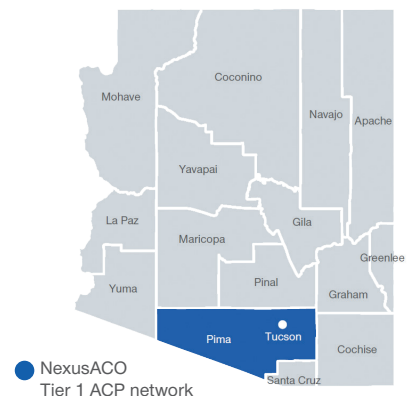

- Improved simplicity.
- Greater efficiency.
- Employer savings of up to 15%.

Our next-generation solution.

What makes NexusACO different is how UnitedHealthcare is able to harness its sophisticated data and technology to identify and collaborate with high-performing Accountable Care Organizations (ACOs) proven to help deliver greater efficiencies and outcome-based results.

NexusACO Tier 1 network.

The Tier 1 network includes ACP physician groups and other quality primary and specialty care physicians to form a network with more than 1,000 providers.³

Creating an essential relationship.

In the NexusACO plan, members choose a PCP during open enrollment. This relationship enables the PCP to provide a trusted, efficient, single point of contact to coordinate all aspects of their care. Members in a NexusACO plan will receive the greatest value when they choose both Tier 1 PCPs and specialists. Where an ACO has not yet been identified, Tier 1 physicians include UnitedHealth Premium® designation PCPs and specialists. The UnitedHealth Premium® program provides physician designations based on quality and cost efficiency criteria to help members make more informed choices for their medical care.

Improved simplicity, greater efficiency and lower costs.

Beyond the cost savings that NexusACO delivers for your company, your employees and their families, your employees will have a trusted resource to help navigate the health care system.

Our NexusACO alliances are delivering results.

NexusACO providers are yielding significant cost and quality advantages for employers and employees, including:

PCP & SPC Visits

NexusACO members had **12.2% more PCP visits** and **6.8% fewer specialist visits** than non-NexusACO members.*

Cancer Screenings

ACOs had an average of **13.4% higher Cancer screening compliance** than non-ACOs (breast, colorectal and cervical).**

Diabetic Care

ACOs had **12.7% higher annual Diabetic screening compliance** than non-ACOs.**

Treatment Protocols

ACOs had a **5.6% higher persistence for follow-up treatments** after a heart attack than non-ACOs.**

Well-Child Visits

ACOs had over **12.6% higher rates of well-child visits** than non-ACOs.**

* Results from UnitedHealthcare commercial claims data that includes NexusACO members vs. non-NexusACO members from June 1, 2018 through June 1, 2019.

** Results from UnitedHealthcare commercial claims data that includes ACOs in NexusACO compared against non-ACOs from September 1, 2018 through August 31, 2019.

Tier 1 providers may be subject to change, visit myuhc.com® for the most current information or call the number on your health plan ID card.

The UnitedHealth Premium® designation program is a resource for informational purposes only. Designations are displayed in UnitedHealthcare online physician directories at myuhc.com®. You should always visit myuhc.com for the most current information. **Premium designations are a guide to choosing a physician and may be used as one of many factors you consider when choosing a physician. If you already have a physician, you may also wish to confer with him or her for advice on selecting other physicians. You should also discuss designations with a physician before choosing him or her. Physician evaluations have a risk of error and should not be the sole basis for selecting a physician.** Please visit myuhc.com for detailed program information and methodologies.
