

A solution for better health outcomes and cost savings.

More than ever, members realize they play an important role in getting the health care they need. But not knowing if a choice is the right one can be intimidating and can lead to disjointed, inefficient care delivery. NexusACO® provides a framework to support members in achieving improved results and cost savings.

It's all about connections.

The key to this framework is connecting the outcome-based results of high-performing providers, the better member experience of a primary care physician (PCP) to “quarterback” their care and the incentive of a national network tiered on results and cost efficiencies to deliver employer savings of up to 15 percent.

Our next-generation solution.

What makes NexusACO different is how UnitedHealthcare is able to harness its sophisticated data and technology to identify and collaborate with high-performing ACOs proven to deliver greater efficiencies and outcome-based results.

Creating an essential relationship.

In the NexusACO plan, members choose a PCP during open enrollment. This relationship enables the PCP to provide a trusted, efficient, single point of contact to coordinate all aspects of their care.

Members in a NexusACO plan will receive the greatest value when they choose both Tier 1 PCPs and specialists. Where an ACO has not yet been identified, Tier 1 physicians include UnitedHealth Premium® designation program PCPs and specialists who have been recognized for cost efficiency and quality outcomes.

NexusACO benefits.¹

- Improved simplicity.
- Greater efficiency.
- As much as **15% lower costs.**

CONTINUED

Improved simplicity, greater efficiency and lower costs.

Beyond the cost savings that NexusACO delivers for your company, your employees and their families, they will have the added confidence of a trusted resource to help navigate the health care system. Choose NexusACO and expect to hear comments like these:

“I selected my PCP and I was able to schedule my first checkup. I have greater trust in my plan because this doctor is going to help me manage my health.”

“With my PCP and the Tier 1 specialists, I have access to all the care I need. And a single app on my smartphone makes it easy to check my deductible, pay claims, see new incentives and more!”

“My employer has given me access to quality providers – and I even save money when I use them.”

Employer-sponsored and individual results.²

10%

more PCP visits than non-ACOs.

14%

fewer ER admissions than non-ACOs.

ER

12%

better financial results reported by top ACOs than non-ACOs.

11%

reduction in hospital admissions for commercial clients.

H

Contact your UnitedHealthcare representative for more information.

¹ Accountable Care Organizations (ACOs) are integrated groups of health care providers including primary care physicians, specialists and facilities that work together to improve health outcomes, lower costs and increase patient satisfaction.

² 2018 Value-based Care Report, “How Value-based Care is improving quality and care,” February 2018. These statistics represent aggregated UnitedHealthcare results for all ACOs. NexusACOs can be expected to yield equal or better metrics.
