

Removing the deductible obstacle for members

In response to consumer demand for more transparency in health care, we have developed 5 Oxford¹ non-gated EPO plans with a zero deductible (ZD) for the New York small (1–100) group market. By removing the upfront deductible for members, our **Oxford ZD plans** help remove confusion for members by letting them know what they will pay out-of-pocket before getting health care services. With fixed copayments for benefits and 100% coinsurance, these plans also tend to be more affordable for small businesses, with the goal of helping them keep both their employees and their bottom line healthier.

Oxford ZD plans are available with either the Freedom, Liberty or Metro networks. When paired with either the Freedom or Liberty network, these plans also include national network access when traveling outside of the Oxford service area.²
